# How to Use this Book

This booklet is for you. It represents elements of my life's work. In the fields of numerology and astrology. It is an added companion bonus, to my book "*5 Numbers of Destiny*". For a shorter version of the book, you can also use the introduction to Chaldean Numerology "*Cheat Sheet: How to Name Your Business using Chaldean Numerology*".

5 Numbers of Destiny is available [here](#)  
Both are available [here](#)

## Lucky Days for all Day Numbers

The following tables show:

1. **LUCKY DAYS:** Your luckiest days to plan, start or end anything, based on your lucky day of the week combining with your Day Number. These are in black.
2. **DAYS TO AVOID:** Lucky days that happen to fall during eclipses, and **should be avoided** for ending or starting anything, and unlucky years are *highlighted in red*. Also included are lucky days that fall during unlucky months or periods of time for your specific number, that **should be avoided**.
3. **SUPER POWER DAYS:** Most powerful and luckiest days and years for you are *highlighted in bold*.
4. **ADDED INFO:** After finding a lucky day, look up look up what astrology sign your moon is in, and avoid any days during which the sign is in its opposite. For example, the opposite sign of Gemini is Sagittarius. If your moon is in Gemini in your birth chart, you would avoid taking any action during the time in which the moon is in Sagittarius. If any of your lucky days happen to be when the moon is in Sagittarius, do not make or break important plans, commitments or contracts on that day.

In short, I have mapped out all eclipses, unlucky time periods, months and years for each Day Number, as well as the luckiest days, years and periods.

Enjoy!

*Anmarie*

Note: If you have problems in your personal numbers – such as the numbers are bad combinations, repeating difficult numbers or your TNN and Day number are not in harmony, it is advised that you first balance your personal numbers, before using the charts. If you are *not* using your Day Number energy, because it is causing problems, and have to use a TNN or other number instead, go to that number in the charts, and take action on *those* lucky days. For example, you are born on the 4<sup>th</sup>, but have problems with the number 4, and have chosen to use your 6 TNN instead – go to number 6 and use those lucky days to take action, as well as using all the colors and stones of the 6!

***If you are using this booklet to find the lucky days for a business, you will need the date you actually launched. This is when you hung out your shingle and opened for business to the public. It may be the day your website went live, or your first day you announced yourself as open. If your business is a book, it will be the day the book was published and up for sale. If it is a piece of art work, it will be the day you put it out in the public eye for sale. Whether that was at an art fair, on your website, in a place of business, etc. This launch day is the birth of the business or piece of work, and is its Day Number. You would look up the lucky days for that Day Number in the following charts, and plan events or other important ventures for the business on those days. (If you do not know your launch day, you can use the TNN of the name of the business or project, and choose days from that number, instead.)***

# Eclipse Charts

Check the following charts for eclipse periods in any given year. I advise against taking action 30 days before the start of the first eclipse and waiting until 3 full days after the last. This period of time is known as the Shadow of the Eclipse, and actions taken during these times, create long term negative effects. Keep in mind that there are always 2 eclipses that occur back to back, but occasionally there are three. Also note that there are times when you can feel the shadow approaching earlier than 30 days before the initial starting date.

Energies and emotions are heightened and stirred up during an eclipse, and you may find yourself desiring change. But decision-making is faulty during this time. Also, many people choose to leave the earth plane during eclipses.

An example of the Shadow of the Eclipse period: For the year 2020. The first eclipse listed is Nov. 30. The second ends on December 14. The shadow of the eclipses would last from October 30 – December 17. It would lift on December 18.

## ABOUT THE AUTHOR

Anmarie Uber's interest in the metaphysical field has continued, throughout most of her life. She had her first remembered contact with the other side, at age three, and an insatiable passion, throughout childhood, for ghosts, UFOs and anything paranormal. Anmarie began exploring astrology and numerology at age 16, and tarot, yoga, massage, nutrition, palmistry, crystal healing, Feng Shui, energy healing, and the philosophy of reincarnation at age 21. Her ongoing quest for spiritual truth has been all-consuming, and has many times taken precedence over personal needs, or worldly goals. What she has found, is that many "new age" belief systems, can be roads to nowhere...another program to be sifted through. Although Anmarie has studied and lived countless spiritual and religious ideologies, the last five years of her life have been the most challenging, as the pressure to keep humanity down is increasing. Anmarie believes in finding the humor in difficult situations, forgiving hardships and lessons with others, and having faith. We are all programmed beings, trying to awaken...and awakening to your true Self, is the most important accomplishment in life.
